CHOLERA IN SPAIN.

A German Colonial Council.

CONGRESSIONAL PROCEEDINGS.

Proofs of Stanley's New Book Purloined.

A Railroad Man Short in His Accounts.

Congressional Proceedings.

WASHINGTON, June 14.—The Speaker announced the appointment of Taylor of Ohio, Stewart of Vermont and Bland of Missouri as the conferees on the anti-trust bill. Bland said as the House had instructed the conferees to recede from its amendment, he had no further interest in the matter and asked to be excused. Culberson of Texas was appointed to fill the vacancy.

The Committee of the Whole considered the sundry civil appropriation bill, and after a number of amendments were disposed of the committee rose and the House proceeded to pay a tribute to the memory of the late Samuel J. Randall.

SENATE.

After the unimportant business the Senate proceeded to the bills on the calendar, and the following were passed:

Senate bill to amend the laws relating to customs revenue bonds, making the signature of one member of a firm binding on all the members.

Senate bill to provide for a reduction of the Round Valley Indian Reservation in California. It provides for the allotment of agricultural land into ten-acre lots to the Indians in severalty; the allotment of timber and grazing land for their joint benefit; the survey of all the remainder into 640-acre lots, and their sale at public auction, the proceeds to be deposited in the Treasury and expended annually for the benefit of the Indians.

Senate bill for the relief of the Mission Indians of California. It provides for the appointment of a Commission to arrange a just and satisfactory settlement with the Indians for their lands.

Senate bill to provide for the examination of the officers of the army and regulate promotions therein. It provides that promotion to every grade below that of Brigadier-General throughout each army corps or department shall be made according to the seniority in the next lower grade, and proscribes a system of examination of all officers below the rank of Major.

The regular progress on the calendar was interrupted at the request of Morrill, and Senate bill was taken up to establish an educational fund and apply the proceeds of public lands and the receipts from certain land grants to the railroad companies to the support of colleges for the advancement of scientific and industrial education.

Morrill addressed the Senate in its advocacy.

Cholera in Spain.

MADRID, June 14.—The cholera has broken out at the Puella de Rugat, in Valencia, and there have been already fourteen deaths. It is believed the disease was brought by soldiers from North Africa.

A Liberal Price.

LONDON, June 14.—The original manuscript of the poem "Scots wha hae wi' Wallace bled" was purchased by an American for £70 at an auction sale.

Mary Anderson's Marriage.

By Cable and Associated Press.
LONDON, June 14.—At Brompton Oratory on Thursday morning next Mary Anderson will wed Antonio Navarro of New York. The ceremony will be performed by Cardinal Manning. The wedding will be as private as possible.

The only persons who will attend are D. I. Griffin and wife, the latter the mother of the bride, Joseph Anderson, her brother, and wife, who is a daughter of Lawrence Barrett, Alfonso Navarro and Miss Lytton, daughter of the British Ambassador at Paris. The two latter will witness the ceremony. For some reason Mrs. Navarro, who was chaperone for Miss Anderson while traveling through the south of France, will not attend. She is at Rome.

The bride and groom will leave England after the ceremony and visit Paris, Rome, Venice and Geneva. They will reach London again early in October.

The German Empire.

By Cable and Associated Press.
BERLIN, June 14.—It has been decided to appoint a Colonial Council to take cognizance of the increasing mass of colonial work. The council will be composed of persons who have won recognition as explorers in Africa and other countries.

An enormous meeting of Social Democrats was held in Kolksbraueri at Moabit, a suburb. The immense building was packed to suffocation, and thousands who were unable to obtain admission held overflow meetings. The meeting was very exciting and the speakers freely criticized the Socialist and labor policy of the Emperor. The meeting passed a resolution censuring the Kaiser for his labor rescripts. They demanded a full, unrestrained share in the government of the Empire, which could not with safety be denied them.

No Damages Expected.

By Associated Press.
PITTSBURG, June 13.—It has been decided by a committee of attorneys for claimants for damages on account of the Conemaugh disaster not to prosecute the South Fork Lake Fishing Club. All the suits, therefore, will be withdrawn. This action is taken in connection with the verdict in Tarkell's suit, which was that he had no ground for action against the Pennsylvania Road on account of the death of members of his family in the day express, and is supposed to establish immunity from suits of all concerned. Probably not a dollar in damages will ever be received.

A Literary Thief.

By Cable and Associated Press.
LONDON, June 14.—The *St. James Gazette* says a complete set of the proofs of Stanley's forthcoming book were obtained by a person who offered copies to one English paper and to two papers published in the colonies. The copies were accepted, but the publication was thwarted by the issue of a circular by the house which is to publish the book, warning any person against publishing the work under a penalty.

Short in His Accounts.

By Associated Press.
LOUISVILLE, June 14.—E. J. Elliott, who is sick in bed from the exposure of the shortage in his accounts with the Louisville & Nashville Railroad, says he used \$300 of the company's money, and no more, and that amount he will make good. He says he knew \$2,800 was missing some days ago, but does not know how it disappeared. The officials think he is responsible for the entire shortage.

Newspaper Failure.

By Associated Press.
UTICA (N. Y.), June 14.—An application for the appointment of a receiver of the *Utica Herald* was made to-day. The application has not yet been granted, but undoubtedly will be. Assistant U. S. Treasurer Ellis R. Roberts, at New York, is chief owner. The liabilities are estimated at about \$100,000.

Two Shots and Two Dead Men.

By Associated Press.
PHILADELPHIA, June 13.—This afternoon two pistol shots were heard in the cellar of a dwelling on Maple street, below Cleveland. Upon several pedestrians entering the place they found William Collins and Charles Dermer lying on the floor, both dead. Both were about 30 years of age.

Emin to be Stopped.

By Cable and Associated Press.
BERLIN, June 14.—The Government has instructed the German officials in East Africa to prevent Emin Pasha from entering Enguanda while negotiations are pending between Germany and England relative to territory in Africa.

A Pair of Nominations.

By Associated Press.
WASHINGTON, June 14.—The President sent to the Senate the nomination of H. A. Benell of Oregon, Collector of Customs at Yaquina, Ogn.; and Wm. F. Furay of Montana, U. S. Marshal of Montana.

A STRANGE DISEASE.

Execution of a Wife-Murderer.

A LADY TURNING COPPER COLORED.

A Terrific Explosion of Nitro-Glycerine.

Proposed Rowing Match—An Army of Patients.

A Strange Affliction.

DAVENPORT (Iowa), June 13.—Miss Hildegard Whittleborn, a most excellent and highly esteemed young lady of this place, is suffering from an affliction of a most extraordinary nature, and which is pronounced by the medical authorities who have seen her to be unique. About a year and a half ago Miss Whittleborn began to notice that the tips of her fingers and soles of her feet were slightly discolored, but paid no particular attention to it until the discoloration deepened from a faint yellow, hardly more than saltness, to a saffron tint, which began to spread slowly but certainly, until her limbs and the greater part of her body are covered with a stain. It is of a rich copper color, which is growing darker perceptibly from day to day and spreading with a rapidity that is alarming.

The young lady's face, which had hitherto escaped, has within the last day or two become infected, one ear and a part of one cheek being already discolored, and it is apparently only a question of time until the entire surface of her body becomes of the same dark tint. The physicians are much puzzled over the case, and, while ascribing it to some coloring pigment of the skin, are at a loss to account for that change. The health of the young lady prior to this strange alteration of her color was fairly good, and since it has been going on has become exceptionally so.

There seems to be no disease of the skin, which remains satin-smooth and performs its several functions as usual, and, indeed, were it not for the singularity of her appearance, owing to the contrast presented to the dark places by those which have as yet retained their natural color, the dark olive hue of her skin is far from being ugly or repulsive, and doubtless by the time it has entirely enveloped her she will find herself as comely an Indian girl as she was as a type of a fair American.

Miss Whittleborn is naturally extremely sensitive on the subject of her strange affliction, and when attending an public place she goes shrouded in a veil. She professes such horror of her condition that she says she can feel its dark shadow actually creeping and spreading over her body like a blight.

An Army of Patients.

By Associated Press.
PITTSBURG, June 13.—At least 10,000 afflicted from all parts of the country gathered at Father Mollinger's church in Allegheny City to-day to be healed and take part in the celebration of St. Anthony's day. It was a curious assemblage of lame, dumb and blind, drawn here by the reports of Father Mollinger's miraculous cures. The services began at daybreak and continued all day. Father Mollinger is a physician as well as a priest, and does not claim any miraculous powers, but is firm in the faith coupled with works.

Proposed Boat Race.

By Associated Press.
BOSTON, June 14.—Teemer has telegraphed his acceptance of the offer of a \$1,000 purse for a race at Point of Pines between himself, Hanlon and Gaudaur on June 27th. As Hanlon declines to row for less than \$5,000, it is expected the race will be contested by Gaudaur and Teemer.

Wife-Murderer Hanged.

By Associated Press.
LONDON (Ontario), June 14.—Henry Smith was hanged this morning for the murder of his wife during a drunken row in February last.

LOCAL INTELLIGENCE.

Board of Trade.
The monthly meeting of the Board was held to-day and a number of interesting matters discussed.

All citizens of the State are invited to notify the Board as to exhibits they will be able to make at the World's Fair in 1892 so space can be secured. Good prospects for immigration were reported.

Mr. Sturgis, a prominent banker and business man of Brooklyn, explained one of the live questions of the day on the subject of taxation.

A letter of the Manager to the Commissioner of Agriculture on the raising of feed and curing of pork was ordered given to the press.

Read Miss Motley's ad. in to-day's paper and you will be sure to want to see her stock.

There are undelivered telegrams at the telegraph office for E. B. Preston and Edward Osborn.

Tourists.
Whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it acts most pleasantly on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50 cent and \$1.00 bottles by all leading druggists.

Somebody Tells Somebody.
Dr. B. Hamlin, of Lemoore, Cal., says a few dozen bottles of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not well do without it. Those who use it find it so much superior to any other remedy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

To Stockmen and Ranchers.
J. Westlake makes men's heavy French kip shoes full stock to order for \$5.00. Try a pair. Repairing neat and promptly done.

Old much people suffer from disorders of the urinary organs, and are always gratified at the wonderful effects of Dr. J. H. McLean's Liver and Kidney Balm in banishing their troubles. \$1.00 per bottle.

No Suffer Remedy can be had for coughs, colds or any trouble of the throat, than "Brown's Bronchial Troches." Price 25 cts. Sold only in boxes.

BETTER THAN GOLD.
RESTORED HER HEALTH.
For 25 years I suffered from boils, erysipelas and other blood affections, taking during that time great quantities of different medicines without giving me any perceptible relief. Friends induced me to try S. S. S. It improved me from the start, and after taking several bottles, restored my health as far as I could hope for at 25 years, which is now seventy-five years.

Mrs. S. M. Lucas, Bowling Green, Ky. Treatise on Blood and Skin Diseases mailed free. SWIFT SPECIFIC CO., Atlanta, Ga.

NEW TO-DAY.

Proposals for Supplies

FOR THE

State Insane Asylum at Reno, Nev.

THE COMMISSIONERS FOR THE CARE of the indigent insane of Nevada will receive sealed proposals for furnishing supplies to carry on the Insane Asylum at Reno, Nevada, up to

June 28, 1890,

for six months, from July 1st to and including December 31, 1890; and for sealed proposals for furnishing wood for one year, from July 1, 1890, to and including June 30, 1891. All bids must be opened and acted upon on June 28, 1890.

All persons desiring to make proposals for furnishing said supplies, or any part thereof, will, upon application to the Secretary of the Board, at Carson City, Nevada, be furnished with a full statement of all supplies required, and all necessary particulars pertaining thereto.

G. W. RICHARDS,

Secretary Commissioners for Insane of Nevada.

5 O'CLOCK EDITION.

UNDER the heading of "Teller on the Defensive," the Salt Lake Tribune editorially says: Good for Senator Teller. There is a satisfaction in seeing the stately forms which certain Senators adhere to set aside and Anglo-Saxon spoken in all its original purity and distinctness. It is good to see a little Western bluntness now and then resorted to in order to sweep away technical cobwebs that certain accomplished gentlemen delight in spinning to catch their flies in. The best point he made was his fierce denial that the silver men want cheap money. We have been looking for some one to throw that slap into the face of the conspirators who first boud and fettered silver, and then, when they had caused gold and silver to draw apart, began to hold up their hands, and, taking advantage of their own wrong, began to cry out: "Would you urge upon us the acceptance of a light-weight dollar?" The next best feature is the evidence, made clear by Teller's speech, of the spirit that is now warming the silver advocates in Washington. They have ceased to fight on the defensive, and are now charging all along the line. They begin evidently to feel that the country is at last behind them. They are fighting with a prospect of victory in sight, and the result will be a silver bill that, if not perfect, will lead up to perfection within the next five or six months. Everything is all right.

THE decision of the Commissioner of Navigation to require all officers of American vessels to produce their naturalization papers before they can be shipped will make an end of a farce which has been played for years. The law has been evaded by taking the word of Captains or owners that their officers are American citizens, and consequently our merchant marine has been largely offered by men whose only interest in it was to draw their pay. The enforcement of the law is the more expedient in view of a possible revival of the American carrying trade, and the movement is now on foot for the organization of a naval reserve.

THE San Francisco Bulletin says: The rumored Democratic revolt against Buckley may command more confidence when more is known about it. The Democrats have a habit of quarreling prodigiously among themselves until a little before election and then voting solidly together. The respectable element of this community would hail with delight any movement in the Democratic ranks calculated to break the grip of the Boss, and there ought to be decent men enough in that party to accomplish that purpose.

EDMUNDS' bill for the reorganization of the Government of Utah, if made a law, will effectually deprive the Mormon hierarchy of its political power and give the Territory to the control of those who will maintain the law of the land and the habits of civilized society. This bill, with the help of the eschanted property of the Mormon Church devoted to educational purposes, holds out some prospect of turning the bulk of the Mormon people from the error of their ways in the course of time.

THERE is a foreign element in the mines of Lackawanna, Luzerne and Carbon counties, Pa., which refuses to give any information to census enumerators, and whose members are known only by numbers, convict labor. This is bringing American labor down to a pretty low status. These people have been rushed into the country through the activity of steam-line agents, and there is little doubt that most of them came in practically by evasion of our laws.

WE give an account of the new creamery in Sierra valley in today's GAZETTE. With the poor prospect for beef cattle to eat hay our Washoe farmers had better be looking for something of the sort to consume their crops. A creamery, a cheese factory or a condensed milk cannery would look more civilized than to see the grass grow into beef and mutton with a minimum of labor or management.

If there is anything sillier than any other thing it is to try to win immortality by paying to get your portrait into public print. It is like trying to make warm weather by setting a candle under the thermometer. The Examiner dishes up the sham in fine shape in its reviews of a book just out which has pictures costing the originals from one to ten thousand dollars each.

NEXT to the pestilential cigarette the cigarette picture has been the greatest nuisance. A large number of young men will be deprived of all incentive for smoking the paper-clad shreds of discarded cigar butts now that the lithographs have been abandoned.

ODD BITS AND BRIEVITIES.

BLACK coffee is now suggested as a cure for consumption.

THE cost of sustaining the regular army of the United States last year was \$40,460,460.

THE population of New Orleans has increased 120,000 in ten years. It is now 336,000.

IT is understood that among the 60,000 Hebrews in New York there is not one single saloon-keeper.

EMIGRATION from Iceland to America has reduced the population of the island by 3,400 within the last three years.

THE habit of gum chewing is said to be on the increase. One firm spent \$15,000 in advertising the goods last year.

NO GENERAL officer of the United States army as at present organized was born South of the Ohio or West of the Mississippi.

NEARLY one hundred type-writers are employed in the census bureau at Washington at salaries averaging about fifteen dollars a week.

THE first apple tree planted in Ohio, can still be seen alive and vigorous on a farm near Marietta. It was planted in 1789 and will bear fruit this year.

FIVE THOUSAND bunches of bananas were tossed over to the mermaids from a Nicaraguan steamer the other day to lighten the ship in a severe storm.

THE superintendent of the State insane asylum at Westboro, Mass., says that seven of his lunatic patients have had their intellects righted by a severe attack of the grip.

THERE are three men in the Oregon State prison each of whom cut off a hand to avoid work. They are confined in solitary cells. Two others cut off the ends of their fingers.

THE oldest man ever applying for a marriage license in West Virginia was Reuben Shinn, aged ninety-six, who was given a license at Sistersville to marry a woman fifty years of age.

A CURIOUS package was recently shipped by express from Jacksonville to Baltimore. It was a small white basket, with silver trimmings, containing the embalmed remains of a valuable dog which died at the former place.

THE sum of \$53,000 in gold coin was sent from San Bernardino to San Francisco by mail a few days ago as second-class matter at one cent an ounce. An insurance company took a risk on the coin and the bank saved \$150 by using the mail.

THE Oakland (Cal.) dupes who lately sold their property for a trifle because they thought the world was coming to an end now want somebody to kick them. They would like to kick the prophet who misled them, but he has disappeared.

IT is singular that Great Britain is the only country in Europe where the doctrines of Mormonism can be promulgated in the public streets. Elsewhere it is a punishable offense for an elder to be found "on the stump" at a street corner.

VACCINATION at sea has been declared by a number of New York doctors as more dangerous than small-pox, and Cunard passengers who claim that they are suffering from blood-poisoning in consequence of being vaccinated on shipboard have brought suits against the great steamship line.

PERHAPS the best result of the earthquake shock in San Francisco was the demonstration that the new tall buildings going up in the city are earthquake proof. The new Chronicle building is the loftiest in the city, being nine stories high and two hundred feet to the top of the tower. It is nearly completed, so that it furnished a good test. Not even a bit of plastering was knocked off the walls; in fact, there was no indication that the lofty structure had passed through a severe earthquake.

ODD INVENTIONS.

A LONDON genius has invented a hot water apparatus to warm piano keys, so that dainty fingers may not be chilled.

IT is claimed that wall paper can be made in such a way that the passage of low-tension electric currents will heat it moderately warm to the touch and diffuse throughout the room an agreeable temperature.

AN ENGLISHMAN has invented a means of utilizing the principle of stilts with wheels. The wheels are fastened to the feet as stilts are, and each acts as a sort of independent bicycle. They go very fast when one has learned how to walk on them.

A BELGIAN has lately invented a magical shirt on the cuffs of which fragments of a score are printed, so that if the instrumentalist be flutist, harpist or cornetist, he has the entire part under his eyes, and need not carry any further music about him.

AN INVENTOR of Belfast, Ireland, has made a pneumatic tire for bicycles that is claimed to destroy all vibration. It is about 9 1/4 inches in diameter, and consists of an outer covering of rubber enclosing an inner air-tube. Air is pumped in by a foot-blower, and a valve prevents its return.

ENGLISH thieves are using a contrivance looking like an ordinary walking stick, but which is so arranged that by pressing a spring at the handle the ferule will spread apart and form a sort of spring clip that will take hold of anything that is within reach. The thing is called the "Continental lifting stick," and is used to take goods from behind counters when the shopman's back is turned.

MISCELLANEOUS.

Malaria

Is believed to be caused by poisonous miasms arising from low, marshy land or from decaying vegetable matter, and which, breathed into the lungs, enter and poison the blood. If a healthy condition of the blood is maintained by taking Hood's Sarsaparilla, one is much less liable to malaria, and Hood's Sarsaparilla has cured many severe cases of this distressing affection.

A Wonderful Medicine.

"For malaria I think Hood's Sarsaparilla has no equal. It has kept my children well right through the summer, and we live in one of the worst places for malaria in Maryland. I take Hood's Sarsaparilla for that all gone feeling, with great benefit." Mrs. B. F. Davis, Maryland, Cal.

Break-Bone Fever.

"My daughter Pearl was taken with dengue (or break-bone) fever 2 years ago, and my friends thought I would lose her. I had almost given up hope until she began to take Hood's Sarsaparilla. She took four bottles in four months, and gained 15 pounds. I thank Hood's Sarsaparilla for giving her back to me restored to health and strength." JULIA A. KING, Sherman, Texas.

Hood's Sarsaparilla

Sold by druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

LOCAL BOARD OF RENO:

ALLEN C. BRAGG, J. R. BRADLEY, G. W. BAKER,

T. K. HYMES, C. J. BROOKINS.

We call your attention to our mode of collection and the safeguards thrown around the funds of the company. The plan adopted by this company insures early maturity of shares and a profitable investment to the holders thereof.

The Pacific States Savings, Loan and Building Company is the only building and loan association doing a general business in the Pacific States that gives absolute security to its members against loss by misappropriation or extravagance, and that is under an experienced management.

It is in no sense a "National," its field of operation being confined to the Pacific States only.

Money loaned at Reasonable Rates.

JOINTINGS.

Wall paper of all kinds at Shoemaker & Ruth's. Mixed paints—the best made, all colors at Shoemaker & Ruth's. A small quantity of C. J. Brookins' prepared paint will improve the appearance of your front fence wonderfully. Give your wife a genuine day of rest to-morrow by taking your whole family to the Arcade for a nice Sunday dinner.

Go to J. J. Becker's Chicago saloon to-morrow for an extra fine Sunday lunch of clam chowder, Boston baked beans and brown bread.

By taking your meals at the Riverside Hotel you will never have any use for the professional services of a druggist or a physician.

Remember to-morrow is Sunday and you should buy your groceries, berries and fruits of E. C. Leadbetter where you will be sure to get a good article.

C. A. Thurston carries a full line of the best gold and steel pens, pencils, inks, mucilage, steel and rubber erasers and all kinds of the best stationery.

The liberal patronage being enjoyed by the Phoenix Hotel shows that the efforts being made to please the public by Mr. and Mrs. Killien, are fully appreciated.

Miss Emma Gibbs is doing her full share toward improving the appearance of the Reno ladies, for her hats and bonnets are universally conceded to be "just lovely."

Wherever Malaria Exists.

The Bilious are its certain prey. In intermittent and remittent fever, dumb ague and ague cake, the liver is always seriously affected, and the blood contaminated with bile. One of the chief reasons why Hostetter's Stomach Bitters is such a sure defense against chills and fever and every form of malarial disease, is that it does away with the cause of the disease, by reforming irregularity of the biliary organs in advance of the arrival of the season when the disease is prevalent. There is no finer fortifying preparation for those about visiting or emigrating to a locality where the malarial taint exists. There is no certain immunity from disease in an endemic or epidemic form, to be secured by the use of the average tonics and anti-spa-modics. But where quinine fails the Bitters succeeds both in preventing and curing. Moreover it removes every vestige of dyspepsia, and overcomes constipation, rheumatism, indigestion of the kidneys and bladder, and tranquilizes and strengthens the nervous system.

Strong Language.

J. B. Langhran, ex-mayor of North Des Moines, Iowa, said recently: "I have just recovered from a severe attack of la grippe. I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had croup some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. I cured his cough and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly urged to take a physic of my own experience and that of my family convince me that these remedies are the best in the world. That may be strong language, but that is what I think." For sale by Shoemaker & Co.

Electric Bitters.

This remedy is becoming so well known and so popular that it need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood. Will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of Headache, Constipation and Indigestion try Electric Bitters. Entire satisfaction guaranteed or money refunded. Price, 50 cts. and \$1 per bottle at Finner's drug store.

Spring Medicine.

Dr. Gunn's Improved Liver Pills on account of their mild action are especially adapted for correcting spring disorders, such as impure blood, liver troubles and worms out of body. They act promptly on the liver and kidneys; drive out all impurities from the blood, and make the system healthy and strong. Only one pill at a dose. Try them this spring. Sold at 25 cents a box by S. J. Hodgkinson.

Buckley's Arnica Salve.

The best salve in the world for cuts, bruises, oozes, ulcers, salt rheum, fever sores, chapped hands, chilblains, corns and all skin eruptions, and positively cures itching or to pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For by Wm. Finner.

Advice to Mothers.

MRS. WINSLOW'S SOOTHING SYRUP should always be used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Impaired digestion and assimilation produce disordered conditions of the system which grow and are confirmed by neglect. Dr. J. H. McLean's Strengthening Cordial and Blood Purifier, by its tonic properties, cures indigestion and gives tone to the stomach. \$1.00 per bottle.

DRIVING AHEAD.

How Sierra Valley is Surpassing Its Neighbors.

The community that takes advantage of its opportunities advances, while those that sit down and fold their hands, no matter how great their natural resources, linger behind. Sierra valley to-day is one of the liveliest places on the Pacific coast, and if it keeps on its present course, will in ten years be a better place to do business than any other valley on the eastern slope.

Eastern people are becoming impressed with the spirit of the people, and already immense capital is looking for investment in irrigation works there. As soon as its

ENTERPRISING PEOPLE.

Found that artesian water could be had, hundreds of wells were contracted for and the condition of things changed entirely in a season.

A very important step in advance is being taken now by the introduction of creameries, which promise to absorb all the spare milk at good prices, and make Sierra valley butter a choicer delicacy than ever. There are already three such establishments, located at favorable points to make business for themselves and markets for the farmers without interfering with each other. One is owned by Mr. Nichols, near Sierraville, another by Mr. Church, at Sautey, and the third, which is on the road between Summit and Loyalton, is the property of Street & Willes.

A GAZETTE reporter made the last named one a visit last week, and was much interested in its operations. The principal machine is a small metallic barrel, through which a core runs,

THE THEORY INVOLVED.

Being to separate the milk into its component parts by gravity. Four thousand revolutions a minute are made and the parts are shaped so as to take the stream of milk, which comes in from the top, but is taken into the current at the bottom, and throw it in a thin layer against the side of the flying cylinder, where it stands a soft white wall with the cream gradually working to the top. Two nozzles on the ends of crooked brass pipes bend over the edge and turned towards the wall of milk held in place by centrifugal force, catch the spray, and the higher and smaller one leads the cream into a can, while a larger one placed below a flange carries a stream of milk up six feet into a large can. The milk is heated immediately and the cream can be churned at once instead of being turned half sour before it can be skimmed. About 1,600 pounds of milk a day are bought by this one firm at a cost of 60 cents a hundred, spreading considerable money among the people. All the milk at present comes from three farms. The machine gets from 15 to 30 per cent. more cream than will rise naturally, and the fresh sweet butter is the perfection of its kind. The price it commands is greater and it is a great advance over old methods. The machine now consumes the milk of about 80 cows, and every Tuesday Mr. Street goes through Reno with a load of butter for Virginia City. The firm gathers the milk every morning, pays 60 cents a hundred and returns the skim milk to the farmers, who use it for calf and hog feed. It loses about 25 per cent in bulk in the operation. There is an immense difference in the weight of milk, some weighing twice as much as that from other cows, while the difference in whole dairies is sometimes 20 per cent. About 3½ to 4 pounds of butter can be made from 100 pounds of milk.

BRUBECK'S RANCH.

What Intelligent Industry Will Accomplish.

The Advocate says: Brubeck's ranch, near the lower end of Honey Lake, is another sample of what one man can do by pluck, energy and ruse. Mr. Brubeck took the place up about nine years ago, when there was no meadow except a little fringe of green along the course of the tiny stream running from the hot springs into the lake. By damming up the larger spring and raising the water a little, he succeeded in forcing it over a large tract of land which now presents one of the finest hay ranches in the valley. All the lumber for his buildings and first fences he rafted across the lake from the sawmills at Millford. Last season, in spite of the dry weather, he cut 300 tons of hay, and during the past hard winter he had plenty, not only for his own stock, but for that of some of his neighbors who were not so fortunate. The water being lukewarm where the cattle drink, keeps them in better condition than if it was ice cold, so he gets along with less feed.

AN APPRECIATED GIFT.

Bestowed in Appreciation of Duties Well Done.

Yesterday Mrs. P. Stanton Marshall received from the twenty different Women's Relief Corps of Southern California a beautiful silk patchwork quilt, as a testimonial of efficiency and regard of the different corps towards Mrs. Marshall as inspector. The quilt is made of twenty different blocks, the name and number of each corps being upon them. Los Angeles contributed a white satin block upon which is the name in red and number in blue. In the center is a likeness of John A. Logan—the name of the corps. All the blocks are tastefully made, showing a vast amount of labor and care has been bestowed upon them. Mrs. Marshall is very proud of the gift, and has cause to be.

Stock Losses.

The condition of the cattle interest in Modoc county, Cal., is shown by a private letter received last evening from the vicinity of Fort Bidwell, which states that neither of the two leading stock firms of that locality will brand 100 calves at this season's round. Outside of the cattle which were fed, the destruction of live stock amounted to nearly a "clean-up."

A Fine Store.

A. Nelson's new cigar and tobacco store, next to John Sunderland's clothing department, will be ready for occupancy on the 25th inst., at which time Mr. Nelson will move from his present location.

BREVITIES.

Local and General Intelligence.

Read Professor Devol's 50-cent ad. of furniture for sale.

Don't forget Hyman Fredrick's Watch Club drawing this evening.

A large number of small boys are to be seen swimming in the river nearly every afternoon.

The late cold snap did not do near as much damage to fruit in this section as was at first feared.

For some unaccountable reason no Reno papers were received at either Carson or Virginia last Thursday.

Bishop Whitaker's School for Girls will reopen September 3d instead of the 7th, as announced by the school yesterday.

H. Howard, aged 63, attempted suicide at Stockton, Cal., Thursday, by shooting. He was a prosperous money lender in early days.

The V. & T. local arrives here at 11:10, the change having been made so Virginia City passengers can catch the Lake Tahoe stage at Carson.

C. A. Dikes, who was defeated for Town Trustee at Red Bluff, Cal., has filed a complaint against his successful opponent, alleging the election was void.

The "Reno Ramblers" will meet at the Postoffice on Sunday morning at 9 o'clock sharp for a club run with the Carson wheelmen. G. F. Westgate, Captain.

Those thrifty and well loaded Concord and Catawba grape vines around Regent Fish's residence on West street show that grapes can be raised in this vicinity.

Good evening—have you bought anything of F. Levy & Bro.? If so, how much have you saved? If not, go and buy, and tell your friends how much you have saved in buying dry goods there.

The V. & T. people will have extra cars attached to the regular passenger to-morrow for the accommodation of those who wish to attend the picnic at Steamboat. The fare for the round trip is 50 cents.

HONEY LAKE ITEMS.

Fine Beef Cattle—Sheep Coming—Freight Arriving—Etc.

The Susanville Advocate says: A band of 150 head of beef cattle in fine condition passed Brubeck's last Tuesday morning. They were from Mr. Clark's place at Jess Valley, and bound for Reno.

The water from Skeddaddle canyon has made a cut far out into the valley six feet deep by a hundred feet wide, and during many weeks, while the snow was melting this spring, the cut ran bank full.

Sheep men are arriving daily from Tehama, Butte and Colusa counties, with their thousands of sheep. They are about three weeks later than usual in arriving this season, and report a considerable amount of snow as yet lying on the summits where they crossed.

Everything around the station at Ligan is piled high with freight. Mr. Sample is rushed all the time attending to it, and it takes three able-bodied men to handle it from the cars. Most of the freight at the station at present is for Alturas, Lake View and other northern points. Six carloads came in on Monday.

Roy Dean says he is about to enlarge and strengthen his dam this summer by digging a trench inside the dam down to bed rock, and fill it with tramped adobe. He has a fine reservoir of water now, but finds that a good deal of water seeps through under the dam, which he hopes to prevent by the above method.

John Williams of Madeline was unfortunate in losing his dam last winter. He had 100 acres of water 20 feet deep, and intended reclaiming several sections of desert land this spring with it. He is going right at it again, with the assistance of the Modoc Land and Live Stock Company as soon as buying is over, and a stronger dam will be built with a larger base and greater waste facilities.

PERSONAL.

Captain W. H. McInness of the State Prison is in town.

S. R. Young of Rye Patch arrived on this morning's overland.

George Cunningham, the Sierra Valley butter maker, is in town.

John Irvine, after a long visit to Ireland, has returned to Reno.

S. L. Jones, Superintendent of the Crown Point, went below last evening.

John W. Mackay arrived from below this morning on his way to the Comstock.

Captain Ferd Reid, Internal Revenue Collector, came in from Winnemucca this morning.

Judge Fitzgerald returned from California on this morning's early train on his way home.

Mr. McDonald, California's Commissioner-at-large to the World's Fair, passed East this morning.

Mr. Gest, Manager of the N.-C.-O. R. R., has returned from an extended visit East. It looks a little like an extension of their track beyond Ligan.

W. H. Hall, supervising civil engineer of the irrigation survey, and W. Trowbridge, chief of the Nevada division of hydrography, went below last night.

M. Rheinhardt of Winnemucca and William Eastman of Austin are in town to attend the Odd Fellows Grand Lodge which is to meet here next Tuesday.

S. B. Sturgis and son of California, on their way to Long valley to visit Hon. J. M. Rhoads and family, are at the Riverside. Mr. Sturgis and Mr. Rhoads were business partners in California as early as 1850.

Entitled to the Best.

All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family Remedy, Syrup of Pepsin, to cleanse the system when constipated and bilious. For sale in 50c. and \$1.00 bottles by all leading druggists.

A Sure Cure for Piles.

Itching Piles are known by moisture, like perspiration causing intense itching when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Ross's Pile Remedy, which acts directly on the parts affected, absorbs 2 mms. of the blood, and effects a permanent cure. Druggists or mail order. Price, 50c. Druggists or mail order. Price, 50c. Druggists or mail order. Price, 50c.

A LONELY DEATH.

An Old Man Dies on a Snow-Drift in June.

The Genoa Courier of the 13th inst. says: "Uncle Johnny" Williams, who had lived in a little cabin near the present site of Bijou, in Lake Valley, for nearly thirty years, died on a snow-drift a few days ago while on his way from Placerville to Lake Tahoe. He lived in Placerville last winter and was provided for by the county. He attempted to return to the lake on foot, and when just this side of the second summit, it is thought he slipped and fell on a steep drift of snow, rolling from the grade to where he was found. A. G. Sumit and wife, while on their way to Placerville, discovered the body. The remains were brought to Bijou, where they were buried on Friday last by friends of the deceased.

Uncle Johnny was about 70 years of age, and was a baker by trade. He had no relatives in this section. The late A. M. Taylor contributed largely to Uncle Johnny's support, as did also H. P. Barnham and residents of Lake Valley. Some years ago the deceased had saved \$2,500 from his earnings at fishing and other work. This he loaned to Fisherman Burk to build a floating palace for Lake Tahoe. Burk failed and Williams could never summon courage enough to rally from this financial crisis, and it is said that from the efforts he was almost an object of charity. Uncle Johnny was highly respected.

CHURCH NOTICES.

CONGREGATIONAL CHURCH.—Services to-morrow conducted by the pastor, Rev. T. Magill, at 11 a. m. The evening service will be held at the Baptist Church, to which all are cordially invited.

METHODIST CHURCH.—Rev. F. Winsor will preach in the M. E. Church to-morrow at 11 a. m. In the evening at 7:30 the sacrament of baptism will be administered, followed by the reception of probationers.

BAPTIST CHURCH.—To-morrow morning at 11 a. m. Rev. T. P. Bradshaw will preach. Sunday School at 12:15 p. m. Rev. T. Magill will preach in the evening.

A NEW INDUSTRY.

A Belief that Tea Can Be Produced in Colorado.

According to the Denver Grocer, a great industry, that of tea culture, has practically sprung up within the State of Colorado. Not many miles from Denver a gentleman is said to have set himself in the most deliberate and determined manner to the solution of the tea problem, from the American standpoint. Careful and continued investigation by him is said to have resulted in the discovery that the conditions of soil and climate existing in several points of Colorado are substantially similar to those in existence in the northern tea district of China. The progress of the new industry will be watched with much interest.

Charged With Murder.

A San Francisco dispatch of the 13th inst. says: The Coroner's Jury to-day held an inquest in the case of Harry McBride, the hotel waiter who was killed in a brutal prize fight with Frank La Rue, another waiter, at the Golden Gate Athletic Club last Tuesday. The jury rendered a verdict charging La Rue with murder. La Rue and several other persons connected with the fight are still under arrest.

Latest Summer Styles.

For a well-made, perfect-fitting suit, and prices that will by all means defy competition, and workmanship which can not be excelled, do not forget to call at S. Jacobs', the reliable, fashionable and leading merchant tailor of our city and State.

The Marriage State.

Prof. A. N. Kiser, a Norwegian statistician, has discovered and declares that the marriage state increases the death rate among women and decreases it among men.

PRACTICAL TESTS.

An Astonishing Offer—Some of the Replies.

The San Francisco papers of recent date contained the following offer:—

"As an evidence of the ability of Joy's Vegetable Sarsaparilla to prevent sick headaches, I have been compelled to take a physic of some responsible person who will apply at our office a bottle free if they will agree that after they have been cured that they will admit the fact over their signatures."

This offer so startlingly asserted the efficiency of the remedy that many accepted, and the letters of the parties, nearly all of whom responded, are probably the most convincing attestations that any remedy ever received. The following is a sample of those received:—

"I have been subject to bilious headaches and constipation for several years past; in fact, have been compelled to take a physic of every other night or else I would have a headache and dull, mean feeling. I have taken that bottle of Joy's Vegetable Sarsaparilla, and have derived great benefit from it, and intend continuing it. After my own experience I can heartily advise those troubled with biliousness and constipation to try it. Yours, CHAS. E. ELKINGTON, 125 Locust Avenue, San Francisco."

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and am able to do the work on my farm and able to do more, ever made." Jesse It is the finest medicine ever made. It has not been for Dr. King's New Discovery for Consumption I would have died of lung troubles; was given up by doctors; am now in best of health." Try it. Sample bottles free at Finner's drug store.

MAILED.

LANGRISH-KAMMERMAN—In Carson City, Nevada, June 12, 1890, Henry Lange to Sophia Kammerman, both of Douglas Co. DIED.

KYAN—In Virginia City, Nevada, June 13, 1890, Edward Kyan, a native of Ulster, N. Y., aged 41 years.

MISCELLANEOUS.

A SCARED EDITOR.

A rugged farmer stalked into the sanatorium with a big whip under his arm. "Be you the editor?" "I am," was the half apprehensive reply. "Here's two dollars—send me your paper, for life," he said. "You see," he went on, "our daughter was sick and like to die; she drooped, no appetite, back ached, hands and feet like ice, couldn't sleep, backed with cough, and we thought she had consumption. No medicine helped her until she tried that Dr. Pierce's Favorite Prescription mentioned in your paper, when she began to mend in no time and is now well and handsome as a rose—put me down as a life subscriber."

Now the editor is looking for another scare. The medicine has cured thousands afflicted as was the farmer's daughter, restoring the female functions to healthy action, and removing the obstructions and suppressions which caused her trouble. It is guaranteed to give satisfaction in every case, or price (\$1.00) refunded. It's a legitimate medicine, not a poison. Contains no alcohol to inebriate; no syrup or sugar to ferment in the stomach and derange digestion.

For a Book of 100 pages on Woman: Her Diseases and How to Cure them, (sent sealed in plain envelope) enclose ten cents, in stamps, to WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 633 Main Street, Buffalo, N. Y.

DR. PIERCE'S PELLETS. Purely Vegetable, Laxative, or Cathartic, according to size of dose. Smallest, Cheapest, Sugar-coated and Easiest to take. Cure Sick Headache, Biliousness, Constipation. By Druggists. 25 cents a box.

ONE ENJOYS.

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, purifying its action and truly beneficial in its effects, its many excellent qualities commend it to all. It is for sale in 50c and \$1 bottles by all leading druggists.
